Summary

Full-time student at the University of Colorado Boulder pursuing a B.S. in Computer Science.

Projects

Memory Defragmentation

This program analyzes memory usage and optimizes allocation.

3D Platforming Game

Created in Lua and Roblox framework, the game focuses on racing other players to the finish line.

Restaurant Management System

This system streamlines restaurant operations, including table management, order processing, and billing. I am currently working on implementing live updates to the system.
